## ABOUT

I am a freethinker, with a goal to always revitalize and add value to the spaces I occupy. I thrive on collaboration. I have particular interests in Data Science and Web Dev.

## WORK EXPERIENCE

### ENGINEERING INTERN

Gearbox | Jun 2022 - Aug 2022

Part of the IoT team in the development and implementation of two projects: The door automation project & The Lights automation project.

Responsibilities:

- Problem solving using microcontrollers such as Arduino, ESP32
- Documentation of projects

### ROBOTICS TRAINER INTERN

Kidd-o skillkit Ltd | September 2021 - December 2021

Worked under robotics trainers in delivery of course content in: Scratch, Code Lab, Electronics and Circuits

Responsibilities:

- Instructed and trained 7-9 yr old students in programming using Scratch, Codelab and simulation using Tinkercad
- Ensured assigned students were on track with their assignments and coursework.
- Provided assistance, motivation and support to students in their projects.
